Dear Rosemary,

Just a little note to reinforce the fact that I do think of you often. You were so helpful in "getting me started" AND I HAVEN'T STOPPED SINCE!!!

Did you ever get a computer and begin to computerize your genealogy? I now have over 11,000 Frantz and collateral lines in one large database and several smaller databases. I may have the largest collection of Frantz, and allied families. And I never seem to get caught up! The data seems endless.

Have you ever determined who the parents were of Balzar, Michael, and Christian? I'm hoping, someday, to acquire that information and I don't have the money to pay a researcher in Germany. I'm hoping someone else has already researched. Do you know of anyone?

I hope this finds you healthy and happy. God bless you!

Warmest regards,

Lorraine

*Just sent
this valentine today
especially to cheer you--
To say hello
and let you know
that warmest thoughts
are near you!*
