Houston, TX 77014

Dear cousin Lori,

Just a quick note with this printout. I was working with some new information that Alice Archer sent. I thought of you and knew your grandfather was Wesley Brubaker. I hoped to find his family connection in my database (I have lots of Brubakers). Well, I only had one other Wesley and not the right age. Wesley is not a name used by the Frantz families and collateral lines so thought there might be a connection between the two Wesleys.

Will you supply me with your Brubaker lineage so I can connect (or attempt to connect) with others in my database? You don't have to send lots of info, just enough direct ancestors to hopefully make the lineage.

Look at the "cousin chart" on page 3. So many Frantz and Brubaker are intermarried through the sons of John Brubaker and Anna Meyer/Myers.

I am still several months from printing the "camera ready" pages of the books Frantz Families -- Kith and Kin. I still have a stack of new information to enter -- and still lots of "proofing." Look over the enclosed and see if there are still some "additions and corrections" that need to be made with your families. I'd like to have an error-free set of books but know that mistakes will be there. I appreciate when "cousins" double-check....

Very best wishes to you, and yours.

Sincerely,

*Lorraine*
